STATEMENT OF SUBSTANCE OF INTERVIEW

Applicant and Applicant's agent, Robert G. Hartman, sincerely thank

Examiner Alhija for the courtesy of conducting multiple Examiner interviews

with Applicant's agent throughout the first two weeks of January, 2007.

During these interviews, Applicant's agent submitted numerous differences

between the above-referenced patent application and the cited §102(b)

reference. For instance, Applicant's agent submitted that the cited reference

fails to disclose "workload definition sequences" or "a run-time policy", both

as recited in Applicant's claims. In addition, Applicant's agent and Examiner

Alhija discussed various proposed claim amendments for the sole purpose of

advancing prosecution. However, no agreement was reached regarding the

allowability of the claims.

Applicant and Applicant's agent once more sincerely thank Examiner

Alhija for the courtesy shown in conducting multiple interviews.

Respectfully submitted.
